Invoice No.: V-24
Date: 8 September 2014
Loan Period: 3 months (due: 31 Dec. 2014)
 Prepared by: Emily M. Braker
 Approved by: Christy McCain

NOTE: All wet specimens are stored in 70% ethanol unless otherwise noted.

MATERIAL (As appropriate, state catalog numbers, name, locality, collector, etc.)

Three (3) *Abronia oaxacae* specimens from the UCM Herpetology Collection, preserved in 70% ethanol.
 Note: Shipment is the first of two, representing half of the UCM holdings for this particular taxonomic series.
 Upon return of the specimens contained in this loan, the remaining half will be shipped to the investigator.

UCM 41057 *Abronia oaxacae*, Mexico: Oaxaca, Rio Molino, San Miguel Suchixtepec (1967)

UCM 39777 *Abronia oaxacae*, Mexico: Oaxaca: Cerro San Felipe (1969)

UCM 39778 *Abronia oaxacae*, Mexico: Oaxaca: San Felipe del Agua, Cerro San Felipe (1969)

Purpose: Taxonomic review of Oaxacan anguids of the genus *Abronia* based on morphological analysis

Instructions: Keep the specimens hydrated in 70% ethanol and in secure locked storage while not in use.

Total No. Specimens: 3

INSTRUCTIONS TO RECIPIENT:

Loans are made for six months unless stipulated above. When returning material, please mention the original invoice number. Types sent on loan must be returned by Registered Mail or UPS.
