---

**MATERIAL** (As appropriate, state catalog numbers, name, locality, collector, etc.)

The investigator is permitted to make a small incision to evaluate specimen stomach contents. Found food items should be placed in a vial of 70% ethanol labeled with the UCM catalog number and physically attached to the specimen, with the associated data reported back. Other types of destructive analysis or tissue sampling are not permitted without Collection Manager's prior approval.

**Total No. Specimens:** 18
