Subject RE: photos and specimen data 

Dear Wayne,

I should have these sent out in the mail later today.

Yes, we harvested our first silver of the year this week. My wife's mother, who is up visiting with us now, caught this beautiful, bright, 7.3 lb. male in the Kasilof not far from our home. We were very glad for her to catch one. The fish is on the smoker presently, to be served at a birthday party for Kim's mom this evening.

Sincerely,

Matt

Matt Bowser, Entomologist
