Dear Andy Hamilton,

I packaged up the Achilidae that I have and a selection of Delphacidae to be mailed out to you today. A list of these specimens follows.

Ownership	Specimen ID	Taxon	Quantity
Pinned specimens			
Kanuti NWR	36436	Eiptera?	1
Kanuti NWR	36436	Eiptera?	1
D. Collet	6690	Megamelus flavus?	1
D. Collet	6603	Criomorphus wilhemi?	1
Kanuti NWR	37393	Criomorphus wilhemi?	1
Vial specimens			
Kenai NWR	3383	Eiptera?	1
Kenai NWR	3296	Achorotile subarctica?	1
Kenai NWR	2027	Javesella pellucida?	23

Thank you for your willingness to examine these specimens.

Sincerely,

Matthew Bowser

That depends on how many Delphacids. Just a few is OK, but they may have to wait their turn.
